PANGANDARAN WEST JAVA - For the next five years, I will sharper and focus more on the Pangandaran Public welfare," said Pangandaran regent H Jeje Wiradinata in his speech at a joint hearing with the Pangandaran DPRD, friday 05/03/2021.

Jeje said, on this occasion it is necessary to convey that we will immediately form a team to formulate various policies, including the vision and campaign promise

to be included in the RPJM for the 2021-2026 fiscal year, which together with the DPRD, we will openly discuss it later," said Jeje.

Likewise with the Juara Pangandaran Card (KPJ) that was distributed during the campaign period, it will be recorded as soon as possible, because it is in KPJ that the Pangandaran people will be more prosperous.

According to Jeje, he and Kang Endin Indrawan had a vision, namely, Pangandaran was a champion towards world-class tourism that sided with the values of the nation's character.

Among them, we will expand access and arrangement of sustainable tourism, as well as develop accessibility and education to higher education and improve the welfare of education personnel and increase the competence of graduates.

We will increase economic and social resilience based on local potential, as well as create a community life that is faithful and devout and realizes religious harmony.

Also we will realize bureaucratic reform that is serving, effective, efficient and accountable.

Improve infrastructure development, spatial planning and disaster mitigation that is integrated and sustainable.

We are committed to making Pangandaran even better, where the community should be able to benefit from the presence of a leader," said Jeje.

Also according to him, related to the budget requirements for honorary staff, it is approximately 110 billion rupiah per year.

So, for efficiency, we have carried out an assessment to calculate the number of honorary staff required in each service, not to overdo it," he added. (Anton AS)
