PANGANDARAN WEST JAVA - The Sekretary Jenderal Organization of Islamic Cooperation (OIC) Youth Indonesia, Bintang Wahyu Saputra, himself could understand the decition of Presiden Joko Widodo who will take decisive action against group criminal armed in papua (KKB) who continous to do brutal teror

and killing of society in papua.

Beside that, Bintang also requested Jokowi to ignore all of Benny Wenda statemen, which is overseas he claimed himself as Presiden of interim United Liberation Movement for West Papua or ULMWP.

OIC of Youth Indonesia understand and comprehend about decision of Presiden Jokowi in taking decisieve action against armed criminal grup (KKB).

All this time, they continued committing teror and killing against papua society, and not just soldier, and police, also civil society become a victem." Bintang said to some journalists, (02/05/2021).

Acording to Bintang, Presiden Jokowi and government, no need to border Beny Wenda statement, yes, because he is noboddy, he just nasionalis foreign who claim to be west papua presiden.

Beside that, Bintang asked for other country, that there is no need to interfere domestic affair of indonesia, yes, because indonesia is fully sovereignty state.

Papua and west papua is apart of the unitary state of the republik of indonesia (NKRI), its final, Not Excuse, act of free choice (Pepera) Agustus 1969 which is facilitated by united nation (PBB) with full acclamation, at that time papua society has chosen to be a part of the unitary state of the Republik of Indonesia, so, all Beny wenda saying, just let it go, " said Bintang.

Organization of Islamic Cooperation (OIC) Youth Indonesia be thankfull if another country, stay out from internal bussines state of indonesia, especialy ques of papua, don't disturb our sovereignty just becouse your country sympathetic to Benny Wenda.

In the world association, there is ethics, respec your sovereignty friendly country, let's take care of this bilateral relationship and multilateral which was all this time well preserved, " said Bintang.

As is well known, evidently Benny Wenda has given provokatif statement by stating that, Indonesia has killed 500.000 papua people.

This statement was conveye by Benny Wenda to journalists after responding Presiden Jokowi decision who will act decisively papua KKB, of course this is a nonsense statement, which need not to be responded to.

To resolve the problem on Papua and west Papua, it is not an easy matter, on the other hand there are many partner there, who on purpose deliberatrly, by the bottom line they do not want that papua comunity and west papua safe and prosperous.

In the presence of such intrigue, as a result, repeatedly indonesian government just preoccupied by the same problem.

In fact a root of the problem in papua and west papua, it's just wellfare, therefore government through Inpres Number 9 year 2020, instrcuted, inorder problem

solving in papua only with welfare issues, not with armed completion, yes, one of them continue special autonomy and increase special autonomy funds, " his description.

The government had Categorize KKB AS Teroris, but what was done KKB, the level was already above, reality that they are separatist, because they continue touting papua independent.

Under military study, supposing separatist must be crushed, but Indonesian government its not so, yes because after all they are a part of Indonesia, " he explained.

Bintang admitted, out there are still a lot of the party that confessed Benny Wenda as an activist human right, they provided information which is misleading to the people of this world, and not infrequently too they spread false news and hide KKB heinous act.

Out there, a lot of it had cornered Indonesian government, by hiding the action of KKB heinous act, even though that KKB in Papua has been rejected by indigenous peoples led by Yanto Eluay, a son of charismatic public figure, They Hiyo Eluay, " said Bintang.

Because in its capacity as general secretary OIC of youth, Bintang will provide information what really happened in West Papua, and also which has been done by Indonesian government.

I want the world community to know what had really happened in West Papua, at least I can say to fellow activist colleagues OIC of youth have members 57 countries.

I convey that what is done by Indonesian government was an act of law enforcement, crack down firmly to KKB criminals perpetrator, not this one genocide as heralded by activist unscrupulous Papua independent and sympathizers abroad, " he said. (Anton AS)
